

Connections

By Etiosa and Keith

Theme

By using the internet, we are able to use xbox to connect around the world

Xbox

It is an entertaining system that allows the user to interact with many things.

What does it do?

It connects people to each other by playing different games. This happens by using the internet which connects to different servers.

The impact

By Xbox using the internet we are able to connect to friends all around the world. Also even if you don't want to play games you can watch videos on netflix, go on fb or even skype with different people.
